

Release of Information

This Subcontract with the Jet Propulsion Laboratory (JPL) constitutes a subcontract under the Prime Contract between the California Institute of Technology (Caltech) and the National Aeronautics and Space Administration (NASA). It is NASA's policy to provide the widest practical dissemination of information on all of its activities. Since 90% of NASA's research and development effort is performed by private industry, subcontractors have played a large role in this process.

In accordance with this policy, the Subcontractor may want to issue press releases or plan publicity and advertising from time to time, and the Subcontractor will be expected to respond to queries from information media.

Close coordination in all of these matters is required, and JPL requires that all materials (e.g., news and photo releases, exhibit copy, motion picture scripts, and advertising copy) directly related to Subcontractor's work with and for JPL be reviewed by JPL for technical accuracy prior to issuance or use.

To expedite this review, the Subcontractor shall send the materials to the JPL Institutional Communications Office, mail stop 186-120, stating Subcontractor's deadlines and referencing the subcontract number.

In the event this Subcontract is a cost-reimbursement subcontract, review by JPL shall not constitute approval for reimbursement of expenditures made in connection with publicity or advertising releases. Any such expenditure remains subject to applicable cost principles.

Nothing contained herein shall be deemed to change existing requirements relating to the release of classified information.
